Use a 5/16” bit & drill holes 3/8” deep.

Drill 3/32” pilot holes 0.5” deep.

Cut 1/8” diameter 1/2” grip aluminum rivets 0.5” long.

Glue in place after finish applied.

Hammer a cold chisel along the center line to create a v-shaped cutting guide.

Sand and finish with 2 coats of spray poly.

Let dry. Use stencils and permanent marker to create numbers and directional arrows.

Apply final 2 coats of spray poly.

Make center post from a 2.0” long 5/16” diameter dowel.
